

3 Courses

Fundamentals of Java  
Programming

Frontend for Java Full Stack  
Development

Data Structures & Backend  
with Java

**BOARD  
INFINITY**

Dec 11, 2023

**Pratiksha Patil**

has successfully completed the online, non-credit Specialization

# Java FullStack Developer

In this specialization, learners are taught to build web applications using Java & Angular technologies. They have learnt the fundamentals of Java language, how to develop web applications using HTML, CSS, Angular, and how to setup backend using Spring & Springboot. They are well-equipped with the knowledge and skills needed to develop advanced applications in Java.
